Portfolio: **craftwrk.online** • linkedin.com/in/saquibali32 • github.com/th3saquib • g.dev/asaquib

PROFESSIONAL SUMMARY

Full-stack web developer with 5+ years of professional experience across design, marketing and development, including 2+ years of hands-on WordPress and PHP development. I build and run complete digital systems end to end: WordPress and Next.js websites, a React Native mobile app, an ERPNext CRM, internal tools, and the hosting, DNS and security behind them. I also support non-technical teams day to day through user management, training and clear documentation. A design-first background in UI/UX, branding and paid advertising means what I ship is functional, polished, fast and easy to adopt. I have worked with clients and teams in India, the UAE and Russia across several time zones, handle confidential data with care, and am open to remote work and flexible hours. Live websites and design work: **craftwrk.online**.

TECHNICAL SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Node.js, Tailwind CSS, Bootstrap, GSAP, Responsive Design, Accessibility, Cross-Browser Compatibility

WordPress & Backend: WordPress (custom themes, plugins, templates, page builders incl. Elementor), WooCommerce, PHP, MySQL, REST APIs, Payload CMS, Frappe / ERPNext, Python

Hosting & Infrastructure: Linux servers, cPanel, CloudPanel, domains & DNS, SSL, backups, migrations, deployments, LiteSpeed Cache, Wordfence, security hardening, performance optimisation

IT Support & Systems: User account, role and permission management, troubleshooting and issue resolution, staff training, user guides and technical documentation, IT asset management, internal tools, data confidentiality (GDPR-aware)

SEO & Analytics: Technical and on-page SEO, Google Analytics, Google Search Console, Core Web Vitals, New Relic

AI & Automation: N8N, Claude API, OpenAI API, WhatsApp Cloud API, Botpress, Python / ReportLab

Marketing & CRM: Meta Ads, Google Ads, LinkedIn Ads, CRM lead management, social media marketing

Design & Tools: Figma, Adobe Creative Suite, UI/UX design, wireframing, brand systems, print design, Git / GitHub

PROFESSIONAL EXPERIENCE

Web Developer | Aprazer Healthcare Private Limited — Apr 2026 – Present

Sole developer for Aprazer and its group companies, including Gandhi Medicos (pharmacy e-commerce website and mobile app)

- Own the digital platforms for Aprazer and its child companies end to end: websites, e-commerce, mobile, CRM and internal tools, from requirements through deployment and support.
- Build WordPress websites with custom themes and PHP template parts from Figma designs, including the Aprazer Healthcare corporate portal and medicine verification registry.
- Built the Gandhi Medicos e-commerce website in Next.js with Payload CMS, a React Native medicine-ordering app, and a Frappe / ERPNext CRM integrated so orders and customer data flow into one system.
- Developed an international distributor registration portal and a medicine verification system, testing each against real-world data before release.
- Built an employee punch in/out (attendance) system and an IT asset management system for company-wide internal use.
- Act as the go-to contact for staff on web and internal systems: manage user accounts, roles and permissions, troubleshoot and resolve issues, and train non-technical users with step-by-step guides and documentation.
- Automated pharmaceutical documentation and registration paperwork with Python and ReportLab, reducing manual document preparation.
- Manage hosting, production deployments, SSL, backups and security hardening (Wordfence, server-level access controls); keep performance healthy with LiteSpeed Cache and Core Web Vitals monitoring.
- Configured multilingual pages (GTranslate, custom CSS) for export markets; work with management and cross-functional teams on requirements, handle confidential customer and distributor data carefully, and manage all code in Git.

Senior Visual Designer & Marketing Manager | Metropole Group — Jun 2024 – Mar 2026

Concurrently Marketing Manager at Collx Realty, a Metropole Group real estate subsidiary (Sep 2024 – Mar 2026)

- **Metropole Group:** developed and maintained WordPress websites for the group, including The Metropole Group portal with a custom theme, GSAP scroll animations and integrated booking and property inquiries.
- **Collx Realty:** built the Collx Realty property search and broker listing platform with WordPress, PHP, MySQL, LiteSpeed Cache, Strapi CMS and REST APIs, featuring geolocation, dynamic maps and fast search.
- Managed WordPress infrastructure for both companies: Linux / CloudPanel servers, domains, DNS configuration, SSL and security patch deployment.
- Built WhatsApp Cloud API and Botpress chatbot flows that automatically qualify and route inbound real estate leads, cutting manual follow-up for the sales team.
- Set up N8N workflows connected to the Claude API to speed up content production across both brands.

- Led digital marketing and brand strategy for Collx Realty across Meta Ads, Google Ads and organic channels, growing high-intent inbound inquiries.
- Designed and rolled out a unified brand identity across print, digital and environmental touchpoints, and produced in-house campaigns, pitch decks and video content.

Graphic Designer & UI/UX Specialist | Dean Infotech Nov 2022 – Jun 2024

- Revamped the corporate website UI/UX and built unified design guidelines for a multi-page site.
- Designed wireframes and component-based UI patterns for international B2B client websites, handing off responsive, development-ready layouts to developers.
- Created social media and digital graphics with Adobe Creative Suite for cross-border marketing campaigns.

Freelance Designer & Digital Marketer | Craftwrk (craftwrk.online) Jan 2022 – Nov 2022

Self-employed studio serving international clients across 4 countries, including startups in the UAE and Russia

- Developed brand identities (logos, visual systems and guidelines) for startups, and designed and built landing pages for campaigns and product launches.
- Designed and ran paid campaigns on Meta, Google and LinkedIn Ads, using CRMs to capture, track and manage client leads.
- Delivered social media posts, print materials, UI/UX prototypes and video edits; managed client communication, scoping and delivery timelines independently across time zones.

Junior Graphic Designer | Anons Media Jan 2021 – Dec 2021

- Designed digital and social media assets, brand logos, marketing graphics and layouts with Adobe Creative Suite for a Russian media production house, across multiple client campaigns.

SELECTED PROJECTS (LIVE)

- **Woodcell Interiors** (2026) woodcellinteriors.com – Commercial furniture manufacturer platform with interactive product catalogues, architectural specs and inquiry routing. *Next.js, React, TypeScript, Tailwind CSS*
- **Aprazer Healthcare** (2026) aprazerhealthcare.com – Pharmaceutical corporate portal and medicine verification registry, tuned for speed and global regulatory needs. *WordPress, PHP, MySQL, LiteSpeed Cache, Bootstrap*
